Class Schedule: Wednesdays & Fridays, 11:45-13:00.

Text: *Abstract Algebra*, by David S. Dummit and Richard M. Foote.
The digital and print versions of the textbook will be available at: https://www.bkstr.com/concordiastore/home
NOTE: Students should order textbooks as early as possible, especially for print versions in case books are back ordered or there are any shipping delays.

The textbook will be available at the library.

Final Grade: The grading will be the higher of:
(a) Assignments 20%, Midterm 30%, Final 50%
(b) Assignments 20%, Final 80%

If the grading scheme for this course includes graded assignments, a reasonable and representative subset of each assignment may be graded. Students will not be told in advance which subset of the assigned problems will be marked and should therefore attempt all assigned problems.

PLEASE NOTE: Students are responsible for finding out the date and time of the **final exam** once the schedule is posted by the Examination Office. Any conflicts or problems with the scheduling of the final exam must be reported directly to the Examination Office, **not** to your instructor. It is the Department's policy and the Examination Office's policy **that students are to be available until the end of the final exam period. Conflicts due to travel plans will not be accommodated.**

Outline: This is a standard first course in group theory, assuming no background in the subject, but some mathematical maturity, such as the ability to work formally and prove results. We will cover (in parts) Chapters 1,2,3,4 in Dummit and Foote.
